After less than four years in business, Annapolis, Maryland-based Walnut Hill Landscape Company has already made its mark on the Chesapeake Bay region. Launched by brothers Michael and Matthew Prokopchak in 2005, the company has already been named one of the top 10 landscape companies in the region by the *Baltimore Business Journal* and has won several Grand Awards for Outdoor Living Areas from the Landscape Contractors Association of Maryland, DC, and Virginia.

Although Walnut Hill itself is new, both its principals and staff have years of experience. "Our individual strengths and areas of expertise have earned us a reputation as a leader in the industry," says Michael Prokopchak, president of the company and a landscape architect. Matthew is vice president and production manager, while a team of landscape architects handles design and sales. Michael's wife, Ronda, is the company's purchaser.

Walnut Hill provides custom landscapes with thoughtful design, and professional installation with an eye for detail. "We set very high standards for our employees and projects," says Michael Prokopchak. "From design to installation to post-project completion, our approach is hands-on. It isn't unusual for us to visit job sites nearly every day." Because many of Walnut Hill's projects are located on the waterfront around Annapolis and on the Eastern Shore, the company has developed a familiarity

*The company has developed a familiarity with environmental issues and regulations that face waterfront property owners.*

with environmental issues and regulations that face waterfront property owners.

Walnut Hill recently landed its first million-dollar project. Says Michael Prokopchak, "We're looking forward to serving our customers and making the world more beautiful, one project at a time."
